

MEN'S+ YOUNG MEN'S TRENDS

01. Black Modernism

Join the all black everything movement and rock the hue head to toe for cool, confident style. The black suit is reinvented through fit and fabric innovations. Lightweight outerwear in quilted nylon and leather-like finishes evolve the classic bomber silhouette. The Chelsea boot completes this head-to-toe approach to the revived idea of tonal dressing.

02. Sporting Life

Make a move for street-ready staples that are certain to upgrade your fashion game. Performance fabrics and athletic inspired styling are leading the charge. The jogger pant will continue to be a key item, but with new developments on fabric and fit. The entire trend has a more elevated point of view.

03. Country Life

It's what we love about the outdoors in fall — rich colors, cozy textures & timeless styles that perfectly balance rugged with refined. Think plush cashmere, brushed cotton, pebble grain leather and supple suede, all working in harmony to define this rustic-inspired trend.

04. It's A Wonderful Life

Holiday 2015 takes a fresh approach to classic items like Nordic patterned sweaters, tartan plaid wovens, bright colored packable down outerwear and ribbed knit caps. There is an increased emphasis on the dressy aspects of the season that focuses on slim patterned wovens, colored velvet jackets and textured flat front trousers.
